

WI Ethics Commission:

15 day topic registration.

This registration will be considered outside the 15 day window. This client has never registered to lobby before and I may have advised them incorrectly. Even at this point, I am not sure we will have a bill that will be introduced. Without agreement from other groups, the draft will not be introduced. We started to meet with other groups November. We have talked with two other trade groups so far and have another round drafting changes in the works. If that draft does not get the support of the trade groups, the bill will never be introduced. If they do support the bill, we will then look for sponsors of the bill and get it introduced. I did capture the meetings we had with trade groups to discuss the topic of potentially introducing a bill for the July-Dec 25 report. However, we have not had any meetings with legislators about introducing this bill to date.
