Senate Committee on Shared Revenue, Elections and Consumer Protection

**Re: Assembly Bill 415/ Senate Bill 488: Relating to: legislative redistricting.**

**Michelle Ramirez-White – Policy Coordinator, Wisconsin Farmers Union**

Chair Knodl and members of the committees, thank you for the opportunity to submit testimony on Assembly Bill 415/ Senate 488.

In response to the redistricting bill introduced by the Wisconsin Legislature, the Wisconsin Farmer Union urges the bill authors to strive for a stronger non-partisan effort to address our partisan map-drawing process.

Wisconsin Farmers Union applauds elected officials who genuinely seek solutions to end gerrymandered maps in our state, but we do not want our members, who have long advocated for fair representation, to be misled by this bill's content. Under the current version of the bill, the majority of the Legislature can reject the maps, and if rejected twice, can then draw the maps to their own specifications. Additionally, our Legislative Reference Bureau (LRB), the entity charged with drawing WI's maps, would not be guaranteed full independence under the drafting process, and the bill does not prohibit lobbyists and other donors from working on the redistricting process. This is a far cry from a non-partisan third party driven effort and, if implemented in its current form, could actually push Wisconsin further in the wrong direction.

“The process is very concerning, Farmers Union members have wanted to see change in our maps for over a decade, and it's important we get it right and have proper representation in Madison”  
Darin Von Ruden, President of Wisconsin Farmers Union.

Additionally, WFU supports redistricting legislation in the form of a constitutional amendment. If passed, no political party will be able to unfairly change the maps again. The amendment requires adoption by two successive legislatures, and ratification by the people, before it can become effective.

Therefore, without critical nonpartisan safeguards and an open and transparent process including a public hearing, Wisconsin Farmers Union cannot support this bill as written.

Thank you for this opportunity to share Wisconsin Farmers Union's thoughts on this issue.

Sincerely,

Michelle Ramirez-White

Policy Coordinator, Wisconsin Farmers Union
