

Pharmacy Society of Wisconsin: Position on Pharmacists' Professional Judgement

"The Pharmacy Society of Wisconsin (PSW) [stands](#) with the American Pharmacists Association (APhA) in support of pharmacist's right to professional judgment.

PSW supports pharmacists in the unrestricted use of professional judgment to act in the best interest of patients and asserts that a pharmacist's independent medication review is essential to patient safety.

PSW opposes the creation of state and federal laws that negate a pharmacist's right to exercise professional judgment in the best interest of patients' clinical outcomes."
